FOR IMMEDIATE RELEASE

## SPATIALinfo Signs Rainbow Design Services, Inc. as First Bronze Certified Partner

Englewood, Colo., Oct.5, 2010—SPATIALinfo’s newly launched [partner certification program](#) provides targeted business opportunities to elite engineering firms. After purchasing licenses and completing [spatialNET](#) training and testing, engineering firms are paired with potential customers based upon certification specialties, such as fiber, [FTTH, RF and route](#). Three different levels of certification are available: platinum, gold or bronze.

Rainbow Design Services is SPATIALinfo’s first bronze certified partner. Rainbow Design Services has purchased the requisite spatialNET licenses and has completed training in fiber, FTTx, RF and route.

“Being certified in a specialized engineering environment is critical to building confidence with our customers. SPATIALinfo’s certification demonstrates our commitment to helping our customers with unique technical challenges. We are optimistic about our future and proud to be SPATIALinfo’s first certified bronze partner,” said Rainbow Design Services President, Jeff Mardis.

Rainbow Design Services will work closely with SPATIALinfo and its customers to provide custom engineering and mapping solutions to optimize legacy [cable and telecommunications](#) network data and intelligence with SPATIALinfo’s [spatialSUITE](#).

“SPATIALinfo’s partner certification program ensures that our customers receive the highest quality of service to meet their engineering needs. We’re happy to have Rainbow Design Services on-board,” said SPATIALinfo CEO, Greg Foster.

Rainbow Design Services and all of SPATIALinfo’s [certified partners](#) are listed at [www.spatialinfo.com](http://www.spatialinfo.com).

### About SPATIALinfo

SPATIALinfo specializes in developing [network-management software solutions](#) for the [cable](#) and [telecommunications](#) industries. SpatialSUITE™ products make it easy for professionals to map, model and manage complex fiber, copper and RF cable networks. With strong partnerships and loyal customers, [SPATIALinfo](#) is an international leader in developing off-the-shelf network-management solutions that offer a proven return on investment. For more information, call Bill Scheffler at 303-810-4048 or visit [www.spatialinfo.com](http://www.spatialinfo.com).

### About Rainbow Design Services

Rainbow Design Services, Inc. is a leading provider of GIS, mapping, survey, construction and core engineering services. Over 20 years of satisfied customers, a heritage in fiber engineering, deep knowledge of HFC networks and capabilities in the field and in the office; Rainbow Design Services is a phenomenal choice for any organization looking to build new, extend, or improve efficiencies in engineering and operating networks. Strand mapping, fiber engineering, RF design, inside plant documentation, as-built, walkout and serviceability survey services, software development and much more. *"Light speed service. World-class quality."* For more information, call John Earnest at 316-250-9857, e-mail [sales@rainbowdesign.net](mailto:sales@rainbowdesign.net) or visit [www.rainbowdesign.net](http://www.rainbowdesign.net).
